Technical Data Sheet | DPU16-4

Drum and IBC Store | 16 x 205ltr Drums or 4 x 1000ltr IBCs

Backed by a 20-year structural guarantee*, this robust unit is designed with a mild steel sheet base reinforced by RHS cross members and pressed ribs for additional strength. The corner posts, shelves, main rails, and cross members are constructed from rolled hollow section, while the back, sides, and door panels are made from corrugated mild steel sheet for durability.

The sloping roof is pressed, braced, and fully welded around the perimeter, featuring crane lifting points for easy handling. Double steel sliding doors run smoothly on an easy-glide track. The fully seam-welded mild steel sump is fitted with galvanised steel pallet channels (three per pallet space) and complies with all UK regulations for sump capacities. Base plinths prevent ground contact to minimise corrosion risks, and the shot-blasted surface ensures optimal paint adhesion.

Pallets on the upper level rest on a steel support frame, and this model accommodates up to 16 x 205ltr drums (4 pallet locations) or 4 x 1000ltr IBCs across two levels, supporting standard pallet sizes of 1200mm x 1200mm, 1200mm x 1000mm, and 1200mm x 800mm.

Product Specifications

External Dimensions (WxLxH)	1500 x 3000 x 3295mm
No. of Containers	16 x 205ltr or 2 x 1000ltr
Shelf Space	1350mm
Sump Capacity	1125ltr
Colour	Green RAL 6029
Tare Weight	1160kg
Access Aperture (WxH)	1290 x 2795mm

Product Features and Benefits

- Backed by a 20-year guarantee
- Fully meets UK sump capacity standards for safe chemical and liquid storage.
- Elevated design reduces exposure to ground moisture, extending the unit's lifespan.
- Fitted with a rod and lever locking mechanism and keyed handle for enhanced security.
- Provides exceptional strength and durability.
- Holds up to 16 x 205ltr drums or 4 x 1000ltr IBC.
- Supports various pallet sizes and configurations for flexible use.
- 3mm mild steel roof with lifting eyes for easy handling and transportation.
